

### **Narration Beginning: -**

From the picture shown to us, I perceive two female characters of age 22 and 23 years old respectively. Both are in a positive mood.

As it was two people, and river flowing, so I perceive they are preparing for swimming competition.

My story goes like this . . .

### **Discussion Part: -**

1. First discuss the SAM (Sex, age, Moods) - > 8 /10 have xx number of characters so let us go.
2. Secondly let us discuss the theme of the picture, as 3 out of 10 has common theme on malaria or chest number 18 has very well described the steps of action to win the championship in college which includes qualities like responsibility and taking initiatives.
3. Long Term: -
  - a. Planning -> Discussion -> Allotment of task -> Permission required -> implementation
    - i. Implementation - > Description

Short Term: -

- a. Immediately rush to the spot -> use some resource to stop bleeding -> take help from passerby or lift anything - > go to destination -> get admitted -> informed the family and continue the work

### **Points to say during the discussion: -**

1. I agree with chest number 12; I have different perspective towards it.
2. As chest number 4 has not contributed much or did not get chance to speak so let us give her a chance to contribute towards common story.
3. Contributing / adding points to chest number 3 story we can additionally include society for cleaning every Sunday. (Example).
